Clean Up and Paint Up

FELLOW CITIZENS: Let us get together and make this town of ours the most healthful and most inviting in the State. To do this we must organize our forces, map out our plans and get to work. Other cities and towns throughout the United States are finding the efforts along these lines are bringing excellent results.

If we would have a healthful town we must clear our attics, cellars, stables, sheds, yards, streets, alleys and vacant lots of trash, dirt, junk, filth, garbage, rags, cans, bottles and weeds. We must empty toilets, cover manure heaps, drain barn lots, fill up mudholes and slimy, ill-smelling ponds, open gutters, repair streets and burn rubbish.

Then we must use soap and scrub brushes, brooms, rakes and shovels. We must throw lime freely about toilets and stables. Why? Because disease germs and germ-carrying insects, especially flies and mosquitoes, bred in filth and spread typhoid and consumption when they enter our living rooms, alight on our food, or bite us while we sleep.
